

March 23, 1976

year. Now, the budget bill that came in, and I stand corrected as Senator Marvel is more knowledgeable in that, the Governor only put in \$214,000. Now, what will happen is that they are going to use this \$210,000 that was carried over for deferred projects that should have been done last year but because of their willingness not to use it with that 3% cut and then the Governor comes in with \$214,000 is not going to get the job done over the next fiscal year, without the \$4,000 added.

SENATOR BARNETT: Have you discussed this with the Governor? Would he veto it? Would he line item veto this?

SENATOR CARSTEN: No sir, Senator Barnett, I have not discussed it with the Governor. I have no idea. What I am saying Senator Barnett, is that we bring this years expenditure for renovation and maintenance up to the same level as we had had a year ago.

SENATOR BARNETT: Senator Carsten according to Senator Marvel we have got almost a half a million dollars for that project. \$210, and \$214,425.

SENATOR CARSTEN: That is true, but I want to remind you that \$210 of that money is...will be used for projects that were deferred until after July 1 of this year. What money would have been used last year had they not taken the 3% cut. But, they...

SENATOR BARNETT: That is okay, stay right there. Senator marvel, you might comment on this too. How much work can they actually do? In the year? On this up-keep, this half a million dollars isn't that quite a bit of work that can be done if we leave it as it is without adding another \$200?

SENATOR MARVEL: The running total over the year has been about \$400,000 annually that is spent. That is about what they can spend and have spend.

SENATOR BARNETT: Then, in your opinion there is enough money in there to take care of it.

SENATOR MARVEL: Well, with the combined figures based upon the historical background, unless somebody has additional information in this area, it looks to me like this fulfills what they have been doing in the past.

PRESIDENT: Senator Schmit.

SENATOR SCHMIT: Mr. President, members of the Legislature. First of all I agree with what has been said in reference to maintenance. I think that it is wise to take care of the maintenance on a yearly basis. I would like to ask Senator Marvel, I suppose a question with reference too...to the amount of money that we are talking about. Do you have any idea as to whether or not the amount of money that has been proposed by Senator Carsten can be spent in the coming year?

SENATOR MARVEL: Well, the staff work that has been done in this area indicates that the \$400,000 figure is the...seems
